energy-saving LED Technology

The AOC Medical Displays come along with the new HIGH-CONTRAST technology with **1000:1 contrast rate** and a non-reflecting display surface. Due to this technical improvement, this display has an exellent, brillant and sharp picture reproduction. In conjunction with the integrated modern and economic **ECO-technology** it has an average low power consumption only about 21W expected. Equipped with a **medical power supply that has been tested and approved according to DIN EN 60601-1, DIN EN 60601-1-2, UL 60601-1.**
