GarrettCom® Magnum 6KL Industrial Ethernet Managed Edge Switch

The high performance 6KL base unit comes with four 10/100 copper ports (either regular or PoE). Up to four 100Mb fiber ports or up to four more 10/100 copper ports, or combinations, may also be configured.

The Magnum 6KL is Ideal for Building a Switched, Hardened Ethernet Network Infrastructure and Connecting Edge Devices such as PLCs and LEDs with Upstream Switches or Routers.

Features

- Entry-level Heavy Duty Managed Switch for industrial networking applications
- Full-featured MNS-6K software in a small Edge Switch package, DIN-Rail or panel mounting
- Configurable, all 100Mb fiber port types, 10/100 copper ports, Gb with SFPs
- Metal case used as a heat sink (no fans), rated IP52
- DC power: 12V, 24V, 48V, 125V, 250VDC, Dual-Source; Universal
- PoE+ (802.3at) possible on four ports

High Performance

The Magnum 6KL Managed Edge Switches incorporate reliability and security for harsh environments, especially "edge" applications on the periphery of the network where industrial devices are connected. The high performance 6KL base unit comes with four 10/100 copper ports (either regular or standard 802.3af PoE). Up to 4 100Mb fiber ports or up to four more 10/100 copper ports, or combinations, may also be configured. Two Gb ports may be configured as SFP ports or as 10/100/1000 copper ports.

Network Software

The Magnum 6KL comes with the best-ofbreed MNS-6K managed networks software, proven in tens of thousands of hardened applications over 10 years of service. It features GUI ease of use, Secure Web Management, SNMPv2,v3 management, 802.1p QoS Prioritization, Tag-based VLANs, IGMP Snooping and IGMP-L2 multicast management, port security, and a choice of software redundancy options including RSTP-2004 with industry leading fault recovery times in rings and meshes, and GarrettCom's S-Ring product which supports unmanaged switches as part of resilient rings. MNS-6K-SECURE adds more security features such as SSH, RADIUS and TACACS+ support, SFTP, DHCP Server, Syslog events, TFTP and SNTP Server. See the MNS-6K datasheet for more information.

GarrettCom Magnum 6KL - Industrial Ethernet Managed Edge Switch

Applications

Magnum 6KLs are ideal for building a switched, hardened Ethernet network infrastructure, connecting edge devices such as PLCs and IEDs with upstream switches or routers. Designed for use in industrial and heavy duty outdoor applications such as industrial video surveillance systems with PoE, power utility substations, traffic control and transportation facilities, tariffed carrier field facilities, or oil and gas, the hardened Magnum 6KL handles stressful workloads.

Heat Sink Metal Casing

The 6KL's sealed metal case serves as a heat sink, enabling the 6KL to operate in the harshest industrial grade environments and achieves high EMI noise immunity. The 6KL is available with Conformal Coating options and is rated IP52 for dust and water resistance.

Power Supplies

The 6KL can be configured with the user's choice of DC power supplies: 12V and 24V for factory floor, 48V for tariffed carrier field facilities and for PoE-powered applications such as IP video surveillance, and 125V or 250V for substations. An internal AC power supply may also be chosen, universal AC for use worldwide.

Agency Approvals and Compliance

The Magnum 6KL Managed Edge Switch has all appropriate agency approvals and compliance certifications, including third-party UL testing for safety and temperature rating, NEBS L3 compliance, IEC 61850 & IEEE 1613 for power utilities, and NEMA TS-2 for use in transportation systems outdoors.

Warranty

Three years.

Product Description	Magnum 6KL Configurable Managed Edge Switch, base unit with DC power supply and four 10/100 copper ports. May be configured with a variety of 10/100/1000 Mb fiber and copper port connector types via selection from a family of 6KL port modules per this 6KL Configuration Guide. 10 ports max. Heavy duty fully enclosed metal case used as a heat sink, rated IP52 for environmental protection, no fans. For licensed network management software information (MNS-6K, MNS-6K-SECURE, and S-Ring), see their respective data sheets.		
Mechanical			
Enclosure	Steel case. Vertical panel-mounting brackets included. Console port: RJ-45 serial interface		
Console Port	RJ-45 serial interface		
DIN-Rail Mounting	Model # DIN-Rail-6KL, optional		
Enclosure Ingress Protection Rating	IP52, per IEC 60529, and NEMA-3,3X.		
Cooling Method	Convection, fully-enclosed ribbed-surface aluminum case used as a heat sink, designed for vertical mounting, no fans.		
Dimensions	8.0 in H x 1.75 in W x 6.0 in D in vertical panel-mount position. (20.3cm H x 4.4cm W x 15.2cm D)		
Weight	2.1 lbs (.95 kg)

Magnum 6KL Configuration Guide

Magnum 6KL Industrial Ethernet Managed Edge Switch

Magnum 6KL Configurable Managed Edge Switch, base unit with DC power supply and four 10/100 copper ports. May be configured with a variety of 10/100/1000 Mb fiber and copper port connector types via selection from a family of 6KL port modules. 10 ports max. Heavy duty fully enclosed metal case used as a heat sink, rated IP52 for environmental protection, no fans.
