Datasheet

ErgoMounts

Ergonomic Computer and Audio Visual Mounting Solutions

Datasheet

ErgoMounts Limited as the name suggests specialise in ergonomic mounting solutions for LCD, LED, TFT monitors, plasma TVs, keyboards, CPUs and more recently iPads and tablets.

ErgoMounts provide a range of unique, durable, flexible, client led mounting solutions for office, financial, healthcare and industrial applications.

Our UK based team offers a high quality sales and support service, along with friendly advice and guidance on our full range of solutions.

| VESA	LCD size	LCD Max weight	Hole positions (mm)
MIS-D	12"–22.9"	30.8lbs / 14kg	75 x 75, 100 x 100
MIS-E	23"–30.9"	50lbs / 23.7kg	200 x 100
MIS–F	>31"	250lbs / 113.6kg	200 x200, 400 x 200, 600 x 400

ErgoMounts have a comprehensive database of all leading manufacturers LCD, TFT and LED monitors and can very quickly cross reference our database for compatibility.

Datasheet

An ergonomic working environment has been proven to increase employee productivity and reduce absenteeism. Our range of mounts support the latest generation of LCD, LED TVs and plasmas, ideal for use in the home or office environment. All **ErgoMounts** LCD monitor arms adhere to the VESA interface standards (see chart) and we can even provide bespoke interfaces for non VESA standard screens.

ErgoMounts also incorporate a custom/bespoke design service. This service enables us to create a solution to match your exact requirements either from existing components or from scratch. We will work with you to design a brief, prototype and roll-out schedule.

This service has vast experience within the retail, financial, medical and hospitality sectors.

ErgoMounts provide the widest portfolio of specialist solutions aimed at the financial trading market. The modern trading floor is predominantly IT based and restrictions on space are ever present. Our portfolio includes LCD and LED monitor stands capable of supporting up to eight LCD / LED monitors. The VisionPro, UltraView, Trader Stand are used daily by financial professionals throughout the UK and Europe.

Back office ergonomics are also key to a successful and productive workplace. Using an LCD / LED monitor arm not only provides individual users with the ability to adjust their monitor to their correct viewing position but also frees up valuable work space. Combined with an under desk CPU holder, users can reclaim space that would otherwise not be usable.

With over 20 years combined experience of designing, manufacturing and distributing we pride ourselves on our range of space efficient solutions and our product knowledge but above all our customer service. With a database of over 8,500 LCD / LED monitors, TVs and plasmas we can quickly identify compatible solutions. We will go that extra mile to help you in selecting the right solution to meet your needs.

ErgoMounts can also provide a complete installation service for both LCD, LED and Plasma based solutions. These include wall and ceiling mounts for LCD, LED and plasma along with multiple LCD / LED monitor stands.

"At ErgoMounts we will go that extra mile to help you in selecting the right solution to meet your needs."

ParaMotion Series LCD LED Monitor Support Arm

*The **EMPMA101S** ParaMotion Series Arm offers finger touch height adjustment and articulation without the need for additional tools.*
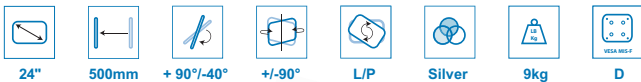

The ParaMotion has a unique parallel head unit enabling repositioning of the arm whilst maintaining the angle of the LCD / LED monitor. The monitor can move freely from landscape to portrait and tilt +90°/-40° enabling repositioning dependant upon user.

The perfect solution for both home and office applications, helping to reduce eye, neck and back strain. It mounts easily to the desk via either a desk clamp or bolt through desk mount / grommet. The grommet fits neatly though the cable management hole reducing the need for additional drilling.

The ParaMotion offers up to 525mm of height adjustment and up to 500mm of reach, perfect for meeting the ergonomic needs of 95% of adults.

Available in a silver finish.

ParaMotion LCD Support Arm, extended, desk clamp and bolt through fitting. Silver finish.

ParaMotion Series Dual Horizontal LCD LED Monitor Support Arm

The EMPMA212S ParaMotion Dual Series Arm offers finger touch height adjustment and articulation without the need for additional tools.

The ParaMotion has a unique parallel head unit enabling repositioning of the arm whilst maintaining the angle of the LCD / LED monitor. The monitor can move freely from landscape to portrait and tilt +90°/-40° enabling repositioning dependant upon user.

The ParaMotion is the perfect solution for both home and office applications. As well as improving productivity it also helps to reduce eye, neck and back strain. Offering up to 525mm of height adjustment and up to 500mm of reach the mount perfectly meets the ergonomic criteria of 95% of adults.

The mount can support up to 18kg on a single 35mm pole in a horizontal mounting configuration. The monitors can be moved from landscape to portrait and tilt +90°/-40° enabling repositioning dependant upon user.

Available in a silver finish.

VisionPro 300 Series

The **ErgoMounts** VisionPro 300 Series is the ultimate future proof range of multiple LCD / LED mounting solutions. Solid ergonomic design combined with flexible configuration supports ever changing needs. Supporting between one and eight LCD / LED monitors and available with free standing, desk clamp or bolt through desk fittings. All configurations are cable managed across the horizontal cross bars. Monitors can tilt, angle left to right and move through portrait to landscape.

VisionPro 3500 Series

The **ErgoMounts** VisionPro 3500 Series Triple Horizontal 24" LCD Monitor Support allows the arrangement of three LCD monitors in a parabolic placement for simultaneous viewing. ErgoMounts responded to demand for a triple mount capable of supporting larger screens. ErgoMounts designed, developed and manufactured the VisionPro 3500 Series, capable of holding three 24" monitors (each up to a maximum of 600mm wide).

The angle adjustable horizontal crosswings and adjustable pivot mounts allow monitor bezels to be positioned together and without gaps.

Available as either a desk clamp, bolt through or free standing mount this solution frees up valuable desk space whilst enabling multiple application use.

Trader Stand Series

*Optional EMVP3-VESAEXT extension plates for triple horizontal configurations - extends max monitor width to 565mm per monitor.
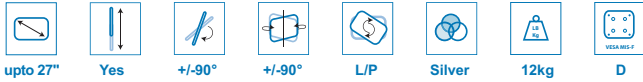

The **ErgoMounts** Trader Stand Series is manufactured in the UK to exacting standards. Supporting between one and six LCD / LED monitors on a single pole the Trader Stand Series is available with a free standing, desk clamp or bolt through desk fitting. Supports allow each monitor to slide across the horizontal cross bars enabling bezels to be positioned in the perfect viewing position. Each monitor is attached via a Teflon coated ball joint that allows tilt, angle left to right and portrait to landscape movement. Silver or black finish.

VisionPro 500 Series Laptop Arm

The VisionPro 500 Series Laptop Support Arm provides the widest range of viewing positions and angles of any laptop arm of its type. Designed to suit any application within the office, production or medical environment. The VisionPro 500 series can be adjusted in height, extension, tilt and swivel to meet all modern ergonomic criterias. Precision manufactured in die-cast aluminium with internal cable management.
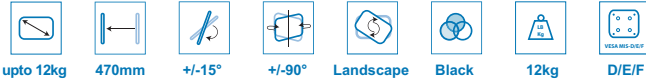

The VisionPro 500 series laptop arm supports all known laptops and notebooks. The laptop tray has a specially designed, vented, anti-slip platform which prevents the laptop or notebook from overheating while in use.

Available in a desk or wall mount fitting, compact (360mm max) or extended (540mm max reach), both configurations provide up to 460mm of height adjustment.

Available in a silver finish.

1 VisionPro 500 Series compact gas assisted laptop support arm, desk clamp and bolt through desk fitting. Silver finish.   **EMVP500S-LTM**

Height adjustment	**460mm (18.1")**

Cobra CPU Holders

The Cobra Under Desk CPU Holder provides a sleek, elegant support for all size CPUs up to 330-570mm high x 0-75mm and 115-200mm wide.

The high quality, all metal design adjusts to the size of your CPU with toolless adjustment.

The Cobra is supplied fully assembled in a silver finish and can accommodate CPUs up to 30kg in weight.

Available in a silver finish.

1	Cobra CPU holder, supports CPUs up to 330-570mm high x 0-75mm and 115-200mm wide. Silver finish.	**EMCPUCOB-1S**
2	Cobra 2 Thin Client holder, supports 110-300mm (h) x 0-90mm (w), Silver finish.	**EMCPUCOB-2S**

Datasheet

SF Series Wall Mount CPU Holders

The EMSFCPU-WM Wall Mount CPU Holder provides a sleek, elegant support for Small form factor CPUs up to 15kg in weight. Two size options are available, narrow for CPUs between 61mm and 102mm wide and standard for CPUs between 81mm and 120mm wide. The EMSFCPU-WM has the benefit of a zero footprint both on the floor and on the desk and can be positioned at any height to suit the required location. The high quality, all metal design is quick and easy to install and fits to the size of your CPU with adjustable clamp technology.

The CPU holder can also be mounted to a 50mm pole using an optional 50mm accessory collar. The EMSFCPU-WM can accommodate CPUs up to 15kg in weight.

Available in a medical white or black finish.

1	SF series wall mount CPU holder. Supports CPUs from 61mm - 102mm. Medical White finish.	**EMSFCPU-WM-MW**
2	SF series wall mount CPU holder. Supports CPUs from 61mm - 102mm. Black finish.	**EMSFCPU-WM-TB**
3	SF series wall mount CPU holder. Supports CPUs from 81mm - 120mm. Black finish.	**EMSFCPU120-WM-TB**

UniMount CPU Holders

The ErgoMounts UniMount CPU Holder is a UK manufactured, cost effective, high quality all metal construction CPU mount designed to mount a CPU to the underside of a work surface to free up desk space.

The UniMount CPU holder supports CPUs with maximum dimensions 200mm (EMUNICPU61) or 135mm (EMUNICPU62) wide and 465mm high and requires minimal on site assembly. The CPU is supported by two sliders which adjust to the dimensions of the individual CPUs.

Available in silver finish.

1	UniMount CPU holder, supports CPUs; 100mm - 200mm (W). Silver finish.	EMUNICPU61S
2	UniMount CPU holder, supports CPUs; 95mm - 130mm. Silver finish.	EMUNICPU62S

Floor Plates and Bases

1. **Pro Series EMPRO-PS Base**
   Heavy weight base, single 50mm central column entry. 600mm x 600mm external dimensions. Supports up to 45kg dependent upon configuration. Combine with 50mm diameter poles up to 2.0m. Black finish.

2. **Pro Series EMPRO-T Base**
   Heavy weight base, dual 50mm rear column entry. 900mm x 750mm external dimensions. Supports up to 73kg dependent upon configuration. Combine with 50mm diameter poles up to 2.0m. Black finish.

3. **Delta Series EMDSFS-LB**
   Heavy weight base, large 935mm x 642mm dual 60mm column entries. Supports up to 70kg dependent upon configuration. Combine with FS series 60mm diameter poles up to 2.0m. Black or silver finish.

4. **VisionPro F1500-MB**
   Heavy weight base, medium 720mm x 494mm, single 50mm column entry. Supports up to 24kg dependent upon configuration. Combine with FS series 50mm diameter poles up to 2.0m. Black or silver finish.

5. **Delta Series EMDSFS-SB**
   Heavy weight base, small, 576mm x 395mm single 60mm column entry. Supports up to 15kg dependent upon configuration. Combine with FS series 60mm diameter poles up to 2.0m. Black or silver finish.

6. **Delta Series EMDSCMP-LB**
   Bolt down floor plate. Single 50mm central column entry. 290mm x 235mm external dimensions. Supports up to 40kg in floor mount orientation (dependent upon configuration). Combine with 50mm diameter poles. Black finish.

7. **Delta Series EMDSCMP-SB**
   Small floor / ceiling mount plate. Single 50mm central column entry. 150mm diameter external dimensions. Supports up to 23kg in floor mount orientation (dependent upon configuration).. Combine with 50mm diameter poles. Black or silver finish.

Datasheet

Ceiling Plates and Attachments

1 Pro Series EMDSCMP-LB-TILT
Large floor / ceiling mount plate. Single 50mm central column entry. 300 diameter dimensions. Supports up to 140kg dependent upon orientation / configuration. Combine with 50mm diameter poles. Black finish.

2 Delta Series EMDSCMP-SB
Small floor / ceiling mount plate. Single 50mm central column entry. 150mm diameter external dimensions. Supports up to 90kg in ceiling mount orientation (dependent upon configuration). Combine with 50mm diameter poles. Black or silver finish.

3 Delta Series EMDSCMP-SB-TILT
Delta series small, heavy duty tilting ceiling plate. 240mm diameter external plate dimensions. 50mm column entry. Supports up to 145kg. Combine with 50mm diameter poles. Black finish.

4 Delta Series EMDSTM50B
Designed to suspend 50mm diameter poles from 42mm - 50mm horizontal poles. Supports up to 140kg dependent upon configuration. Combine with 50mm diameter poles. Black or silver finish.

5 Pro Series EMPRO-ITC1016C
Heavy duty girder mount for 50mm diameter poles. EMPRO-ITC1016 adjusts from 80mm (3.1") - 250mm (9.8"). Supports up to 88kg. Combine with 50mm diameter poles. Black finish.

6 Delta Series EMDS725B
Column adaptor for horizontal to vertical poles. Use with EMDS50COL 50mm collars. Allows connections to be made between poles of differing orientations. Black or silver finish.

7 VisionPro EMVPFR-C
Finishing ring, 50mm internal. For use with 50mm diameter poles to tidy pole entries through suspended ceilings. Chrome, black or white finishes available.

Poles and Joiners

1 **Delta Series EMDSCOL50-1C**
50mm diameter column. Available in 0.5m, 1.0m, 1.5m and 2.0m lengths as standard. Up to 3.0m lengths available to order. Chrome finish as standard. Black finish available to order. Use with 50mm ceiling, floor or wall plates.
EMDSCOL50-1C (1.0m chrome).

2 **Pro Series EMPROCOL-1B**
50mm diameter column. Available in 0,5m, 1.0m, 1.5m, 2.0m and 3.0m lengths as standard. Poles can also be joined using couplers. Black finish as standard. Use with 50mm ceiling, floor or wall plates.
EMPROCOL-1B (1.0m black).

3 **Pro Series EMPROFSCOL72C**
50mm diameter cable managed column for use with Pro series floor stands/trolleys. Available in 1.83m and 2.13m lengths. Poles can also be joined using couplers. Chrome finish as standard.
EMPROFSCOL72C (1.83m chrome).

Delta Series EMDSFSCOL15C
4 60mm diameter cable managed column for use with Delta series floor stands. Available in 1.0m, 1.5m and 2.0m lengths. Chrome finish as standard.
EMDSFSCOL15C (1.5m chrome).

Delta Series EMDS723C-50
5 Internal pole couple for use with Delta series and Pro series 50mm diameter poles. Joins poles without reducing width capacity in vertical orientations. Zinc finish.
EMDS723C-50 (zinc).

Delta Series EMDS724C-50
6 External pole couple for use with Delta series and Pro series 50mm diameter poles. Joins poles without reducing width capacity in vertical orientations. Black or chrome finish.
EMDS724C-50 (chrome)

Delta Series EMDS707B
7 Open end ring for 50mm diameter poles. Allows cables to pass through whilst being protected against any rough pole edges. Provides a professional neat finish. Black or silver finish.
EMDS707-B (black).

Delta Series EMDS705B
8 Closed end cap for 50mm diameter poles. Provides a professional neat finish. Black or silver finish.
EMDS705-B (black).

Datasheet

Collars and Interfaces

1 **Delta Series EMDS50COLB**
Collar for use with 50mm diameter poles. Compatible with most Delta series components. Black finish.
EMDSCOL50B (black).

2 **VisionPro Series EMVP1250TVMB**
Tiltable 50mm pole interface for use on 50mm diameter vertical poles. Accepts EM850/860 and EM507 interfaces. Supports up to 70kg dependent upon configuration. Combine with 50mm diameter poles up to 2 metres. Black finish.
EMVP1250TVMB (black).

3 **Delta Series EMDSTVM**
Tiltable VESA interface for use with EMDS50COL. Includes 75mm and 100mm VESA interface. Supports up to 20kg. Tilts up to 15° downwards. Black or silver finish.
EMDSTVMS (silver). EMDSTVMB (black).

4 **Pro Series EMPRO-PRC2**
Heavy duty tilt and rotate 50mm diameter end column VESA interface. Tilts up to +/-15° and rotates a full 360°. Supports up to 23kg. Supports VESA 75mm x 75mm, 100mm x 100mm, and 200mm x 100mm. Optional 200mm x 200mm interface plate. Black finish.
EMPRO-PRC2.

5 **Delta Series EMDS507B**
Heavy duty VESA 200mm x 200mm, 200mm x 100mm, 100mm x 100mm and 75mm x 75mm interface for use with EMVP1250TVM. Supports up to 70kg. Silver or black finish.
EMDS507B (black).

6 **Delta Series EMDS850B**
Heavy duty adjustable LCD/Plasma interface. Supports VESA 600mm x 400mm, 400mm x 200mm, along with hole spacings 100mm - 410mm (h) and 280mm - 755mm (w). For use with EMVP1250TVM. 800mm x 400mm version available. Supports up to 70kg. Silver or black finish.
EMDS850B (black).

7 **Pro Series EMCTM-MS2**
Pro Series tiltable interface for use with 50mm Pro series collars and interfaces. Tilts up to 12° downwards. EMCTM-MS2 supports most screens 37" - 55". Black finish.
EMCTM-MS2.

8 **Pro Series EM230B**
Heavy duty tilt and rotate VESA interface. Tilts/rotates up to 15°. Supports up to 23kg. Supports VESA 75mm x 75mm, 100mm x 100mm and 200mm x 100mm. Optional 200mm x 200mm interface plate. Black finish.
EM230B (black).

Interfaces and Shelves

1 **Delta Series EMVESA210B**
200mm x 100mm VESA conversion plate. Picks up on VESA 100mm holes. Supports 23kg. 200mm x 200mm VESA interface also available, part number EMVESA200B.
EMVESA210B (black).

2 **VisionPro Series EM715162**
Glass multimedia shelf for use with 50mm diameter single columns. 470mm x 370mm. Supports up to 7.5kg. Complete with 50mm collar. **EM715162.**

3 **EMPRO-MTL-SHGB**
Metal multimedia shelf for use with Phoenix, ProView and Trident dual 50mm columns. Supports up to 12kg. 500mm x 390mm (19.68" - 15.35").

4 **Delta Series EMVESA200B**
200mm x 200mm VESA conversion plate. Picks up on VESA 100mm x 100mm holes. Supports 23kg. Silver or black finish.

5 **EMPRO-VC-SHGB**
Video conferencing equipment shelf, black and chrome, for use with Phoenix, ProView and Trident support stands/trolleys.

6 **EM704706B**
Multimedia shelf and collar, for use with dual 60mm diameter columns.

7 **EMSFCPU-WM**
The EMSFCPU-WM wall mount CPU holder provides a sleek, elegant support for Small Form Factor CPUs between 61mm and 102mm wide. The EMSFCPU-WM wall mount CPU holder has the benefit of a zero footprint both on the floor and on the desk and can be positioned at any height to suit the required location. Available in Medical white or black finish.

8 **EMCPUFF/EMCPUSF**
Wall mount CPU holders, constructed from heavy duty aluminium and designed to wall mount CPUs. Available in two widths; standard 100mm (4") x 205mm (8.4") or narrow 50mm (2") x 116mm (4.6") and light grey, black or medical white finish.

9 **EMCPUFF-PM1/EMCPUSF-PM1**
Pole mount CPU holders, constructed from heavy duty aluminium to provide a strong and reliable pole clamp support. Available in two widths; standard 100mm (4") x 213mm (8.4") or narrow 50mm (2") x 116mm (4.6"). Light grey, black or medical white finish.

Datasheet

Custom Design Services Our customer focused custom design department has a vast experience of designing and manufacturing solutions tailored to meet your exact requirement. Key areas such as point of sale, digital signage and mutliple mount configurations are our speciality.

Digital Signage Multimedia displays can be positioned virtually anywhere required to display information 24/7. Through working closely with the client we can develop the most appropriate mounting solution.

Multiple Screen Configurations Displaying information across multiple screens is now common practice and not limited by technology. **ErgoMounts** can create the most efficient and stylish multiple screen solutions tailored to your requirements.

Bespoke Computer Workstations Not sure exactly what you need? Contact us with your ideas and we can assist in progressing it to reality. Computer work stations can be configured to support all of your equipment and can incorporate anti-tamper fittings.

Multiple LCD/Plasma Ceiling Mounts

An almost infinite number of configurations are available to mount multiple LCD or Plasma screens from ceilings. Configurations can be created to match your ideal display patterns, often from off the shelf components.

Multiple LCD/Plasma Ceiling Mounts
Floor to ceiling mount configurations can be eye catching as well as allowing displays to be positioned in areas otherwise deemed to be out of bounds. By anchoring at both the top and bottom of the poles, each configuration has added stability. Due to the modularity of the components, each system is future proofed enabling additional or larger screens to be added at a later date.

ErgoMounts can also provide full installation service for all mounting solutions subject to an initial site survey.

Mixed Media Size Mounts
In addition to multiple ceiling and floor to ceiling mounts we are able to provide mixed media mounting solutions. These can comprise of mixed screen sizes or mixed media. Plasma, LCD and Projector technology can be incorporated on to a single mounting solution.

Simply state the models along with the intended configuration and we will create the solution to best meet your requirements.

We specialise in solutions for office/financial environments, hospitality, medical and retail.

"ErgoMounts can also provide full installation service for all mounting solutions subject to an initial site survey."

Datasheet

iPad Mounting Solutions

The launch of the iPad opened up a new range of Solutions for ErgoMounts. The versatility of the iPad has meant that the demand and scope for mounting solutions has been immense.

ErgoMounts offer a wide range of ergonomic, space efficient security and quick release mounts for the iPad. Ideal for use at RoadShows, Exhibitions and Retail Outlets these are available in wall mount, desk mount and workstation configurations.

EMIPS80FSS

1 The ErgoMounts secure desktop stand / enclosure is designed to compliment the sleek design of the revolutionary iPad / iPad 2 / the new iPad (iPad 3) and iPad 4, whilst providing a flexible, stable platform to enhance functionality.

2 **EM171B-IPS65**
The ErgoMounts i-Secure Point of Sale (P.O.S) mount/ enclosure is designed to work with all variants of the iPad including the new iPad 4.

3 **EMVPF1280-1B-IPS80**
The ErgoMounts VisionPro F1280 Secure iPad, iPad 2, iPad 3 and iPad 4 Adjustable Floor Mount is an ideal solution for use in P.O.S, exhibition and conference environments or for airport check-in facilities

4 **EMVP500S-IPS80**
The ErgoMounts VisionPro 500 series is a unique revolutionary ergonomic mounting solution for the Apple iPad, iPad 2, iPad 3 and iPad 4. A gas assisted strut and ball joint allow effortless adjustment to the height, tilt, swivel and orientation of the iPad.

5 **EM2260W-IPS50**
The Delta Series Articulating Arm is a highly adjustable, durable pole mount for the iPad, including the new iPad Air. Extends up to 400mm from pole and rotates 180°.

6 **EMUV420TD-IPS50**
The UltraView 420 Series iPad Quick Release Dual Horizontal desk mount is a unique revolutionary ergonomic mounting solution for supporting the range of Apple iPads (including the iPad Air) alongside your desktop monitor.

7 **EMIPS50**
The EMIPS50 iPad freestanding mount is designed to compliment the sleek design of the Apple iPad (including the iPad Air), whilst providing a flexible, stable platform to enhance functionality.

8 **EM820-50-IPS50**
The SS series is a neat, touch screen stable solution with a range of movement, including +/-37.5° of tilt and swivel, plus landscape to portrait rotation. Compatible with the full range of iPad solutions including the newly released iPad Air.

See it your way...
