ErgoMounts

Specialist, manufacturer, distributor, designer and developer of ergonomic computer mounting solutions.

ErgoMounts as the name suggests are a leading specialist manufacturer and distributor of ergonomic computer mounting and storage solutions. At ErgoMounts we are passionate about our products and we understand the need to design and develop solutions according to the ever changing market demands.

ErgoMounts Custom Design Department can both modify existing products and develop from scratch to meet a specific project requirement. ErgoMounts liaise directly with the client and offer site surveys where appropriate by our qualified engineers.

The launch of the iPad, iPad 2, iPad 3 and iPad with Retina Display - iPad 4 opened up a new range of solutions for ErgoMounts. We quickly realised that the versatility of the iPad meant that the demand and scope for mounting solutions was going to be immense.

Initial enquiries from clients led to us developing the security enclosure for use at RoadShows, Exhibitions and Retail Outlets. This, in turn has developed and we can now offer a diverse range of custom made and bespoke solutions from desk mounts, articulated wall mounts to small footprint workstations.

This brochure illustrates examples of our range of security mounts for the iPad, iPad 2, iPad 3 and iPad 4. ErgoMounts also offer a wider range of ergonomic and space efficient quick release mounting solutions for the iPads. Please contact us for specifications and further details:

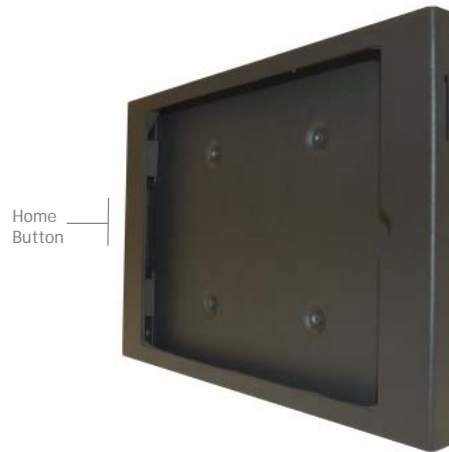

Our clients range from the home user to larger organisations within the retail, promotional and medical industry. All our solutions are designed in the UK and are specific to the individual requirements of the project. Our in-house design team will be happy to discuss your requirements.

Our premium anti-tamper **i-Frame** enclosure is manufactured from a single piece of solid aluminium; each version is designed to the exact dimensions of the iPad, iPad 2, iPad 3 or iPad 4. The **i-Frame** enclosure can be manufactured to integrate a number of security features preventing tampering, interference and theft. Namely the home button, volume control and power button can be blanked off and the power and data socket enclosed in the holder.

The attractive diecast aluminium body perfectly compliments the sleek curves and design of the iPad.

ErgoMounts alternative anti-tamper **i-Secure** enclosure is designed to work with all variations of the iPad, including the new iPad 4. The i-Secure enclosure is available with two different options; the home button and camera covered or the home button and camera uncovered.

ErgoMounts i-Frame Security Desktop Stand

incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The ErgoMounts i-Frame secure desktop stand/enclosure is designed to compliment and enhance the performance of the revolutionary iPad, Pad 2, iPad 3 and iPad with Retina Display iPad 4.

The unique ErgoMounts anti-tamper i-Frame security enclosure is manufactured from a single piece of aluminium; each version is designed to the exact dimensions of the iPad, iPad 2, iPad 3 or iPad 4.

As standard, each i-Frame enclosure is provided with the home and power buttons covered and the power/data socket enclosed in the casing (can accommodate both Apple & Griffin connectors). The headphone socket is also accessible as standard, and tiny holes exist so volume can be adjusted and power button operated (a fine stylus is required to fit these holes). Other options (for example covering the headphone socket, providing a stylus hole on the home button cover) are available: please contact us to discuss your individual requirements.

Such exacting design ensures that the i-Frame enclosure cannot be removed from the mount making it suitable for use in environments populated by the general public - for example at exhibitions

and in reception areas. They are also ideal as point of sale or digital signage solutions.

Silver finish as standard, black on request.

- Highly aesthetic. Designed to compliment the iPads sleek curves and contemporary design.
- i-Frame enclosure can be customised to suit individual security requirements.
- Stand is bolted to the desk for additional security (security fittings required).
- Enclosure does not interfere with WiFi or 3G signal.
- Manufactured from a single piece of solid aluminium, CNC.
- Machined and finished to the exact dimensions of the iPad, iPad 2, iPad 3 or iPad 4.
- Strong, durable, lightweight, aluminium construction.
- Enclosure can be mounted in portrait or landscape.
- Silver finish as standard, black on request.

I-FRAME DESK MOUNTS

8

ErgoMounts VisionPro 500 Series i-Frame Security Enclosure
 incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The EMVP500 Series i-Frame is a unique revolutionary ergonomic mounting solution for the Apple iPad, iPad 2, iPad 3 and iPad with Retina Display iPad 4.

The VisionPro 500 Series i-Frame Security Mount lets you optimise your iPad viewing angle or position by providing full 3D ergonomic positioning.

The advanced gas-strut and ball joint allows effortless adjustment to the height, tilt, swivel and orientation of the iPad.

Achieve almost any viewing angle with a quick adjustment or retract the arm to a compact size to increase your work surface area.

A perfect solution for use within exhibitions, reception areas, as point of sale or as digital signage.

The attractive die-cast aluminium body perfectly complements the sleek curves and design of the iPad.

Available in desk or wall mount fitting, compact, extended or double extended.

Silver as standard, black on request.

- Provides up to 360mm/540mm/720mm (14.1"/21.2"/28.3") reach, 460mm (18.1") height adjustment and 360° rotation around the base.
- +/-57° of monitor tilt and swivel / landscape to portrait movement.
- Gas assisted height adjustment.
- Highly aesthetic, sleek design.
- Casing is exposed to eliminate interference with Wifi.
- Security, anti-tamper device.
- Desk clamp, bolt through desk or wall mount fitting.
- Touch screen stable.
- Compatible with the iPad, iPad 2, iPad 3 and iPad 4.
- Silver as standard, black on request.

ErgoMounts SS Series i-Frame Security Desk Mount

incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The SS Series i-Frame desk mount has unique teflon coated ball joints allowing you to optimise your iPads viewing angle or position.

The ErgoMounts Super Slim adjustable iPad arm is one of the most stylish solutions currently on the market.

The unique ErgoMounts anti-tamper i-Frame security enclosure is manufactured from a single piece of aluminium; each version is designed to the exact dimensions of the iPad, iPad 2, iPad 3 or iPad with Retina Display iPad 4.

The super slim arm provides reach, tilt, angle left to right and portrait to landscape movement.

The 10mm diameter stem connects two teflon coated ball joints that each provide 37.5° of movement in all directions.

As standard each i-Frame enclosure is provided with the home and power buttons covered and the power / data socket enclosed in the casing (can accommodate both Apple & Griffin connectors). The headphone socket is also accessible as standard, and tiny holes exist so volume can be adjusted and power button operated (a fine stylus is required to fit these holes).

- Provides up to 300mm of reach, +/- 37.5° of tilt and +/- 37.5° of swivel.
- Highly aesthetic, sleek design.
- Casing is exposed to eliminate interference with Wifi.
- Security, anti-tamper device.
- Touch screen stable.
- Landscape to portrait.
- Compatible with the iPad, iPad 2, iPad 3 and iPad 4.
- Available in a silver finish.

ErgoMounts **FX100 Series** i-Frame Flush Fit Wall Mount

incorporating **security features**, speaker holes, and limited access to on/off and sleep mode buttons.

The EMFX100 Series i-Frame is a neat, compact wall mounting solution for the Apple iPad, iPad 2, iPad 3 and iPad with Retina Display iPad 4.

The FX100 Series i-Frame Wall Mount is designed to mount the iPad as close to the wall as possible. The iPad can be mounted in either a landscape or portrait configuration.

The Ultra low profile attaches the iPad to within 45mm of the wall, whilst its clever design allows quick and easy installation.

The unique ErgoMounts i-Frame anti-tamper security enclosure is manufactured from a single piece of aluminium; each version is designed to the exact dimensions of the iPad, iPad 2, iPad 3 or iPad 4.

The i-Frame enclosure can be manufactured to integrate a number of security features minimising tampering and interference. Namely the home button, volume control and power button can be blanked off and the power and data socket enclosed in the holder. This ensures that it cannot be removed from the mount enabling it to be used in retail environments for use by the general public.

Available in a Silver finish (black available on request).

- Neat and compact just 45mm from the wall.
- Wall mount fitting.
- Home button, volume control and power button can be blanked off or stylus holes can be added.
- i-Frame, security, anti-tamper device.
- Touch screen stable.
- Compatible with the iPad, iPad 2, iPad 3 or iPad 4.
- Can be mounted either landscape or portrait.
- Simple installation.
- Silver finish.

ErgoMounts VisionPro F1580 i-Secure Floor Mount

incorporating **security features** and limited access to on/off and sleep mode buttons.

The VisionPro F1580 Secure iPad, iPad 2, iPad 3 and iPad 4 Adjustable Floor Mount an ideal solution for use in P.O.S, exhibition and conference environments or for check-in.

The ErgoMounts VisionPro F1580 Adjustable floor mount is an ideal solution for use in Point of Sale, exhibition and conference environments or for check-in.

The VisionPro F1580 iPad stand can be adjusted in height, tilt and swivel with landscape to portrait movement.

The 1.0m pole is attached to a heavy duty 720mm x 495mm free standing base that can be bolted to the floor for extra stability.

The unique ErgoMounts anti-tamper security enclosure is designed to work with all iPad models, including the new iPad 4.

The enclosure is available with two different options; the home, power button and camera covered or the home, power button accessible.

Security screws ensure that the i-Secure enclosure cannot be removed from the mount making it suitable for use in environments populated by the general public.

Silver, black and chrome finish

- Highly aesthetic, strong sleek and safe floor mount.
- Ideal solution for P.O.S, exhibition / conference venues and check-in facilities.
- Heavy duty 720mm x 495mm free standing base, can be bolted to the floor for additional stability.
- Cables route neatly through the pole.
- iPad can swivel and tilt and move from landscape to portrait.
- Security anti-tamper device.
- Touch screen stable.
- Compatible with the iPad, iPad 2, iPad 3 and iPad 4.
- Custom pole lengths available on request.
- Black base, chrome pole, black enclosure.
