

Medical Mounting Solutions

*See it
your way...*

MedicalMounts is a **specialist** division of ErgoMounts Limited, focusing on **manufacturing** and **distributing** high **quality** mounting solutions for LCD monitors, CPUs and keyboards. ErgoMounts is the European distributor for ICW USA, the leading US based manufacturer of professional grade mounting solutions.

VESA	LCD size	LCD Max weight	Hole positions (mm)
MIS-D	12"-22.9"	30.8lbs / 14kg	75 x 75, 100 x 100
MIS-E	23"-30.9"	50lbs / 23.7kg	200 x 100
MIS-F	>31"	250lbs / 113.6kg	200 x 200, 400 x 200, 600 x 400

ErgoMounts have a comprehensive database of all leading manufacturers LCD/ TFT monitors and can very quickly cross reference our database for compatibility.

The **MedicalMounts** portfolio is widely used in both medical and non-medical environments. For dental and medical installations the high quality finish of all solutions allow alcohol wipes to be used to clean all surface areas without causing surface deterioration.

All MedicalMounts solutions incorporate:

Extendibility
Longest reach mounting solutions in the industry. Built in ergonomic height adjustment.

Cable Management
All mounting solutions are designed to conceal cables.

Stowability
Products are designed to stow a minimum distance from the wall.

Flexibility
Modular design and wide component range ensures solutions that exceed customer requirements without customisation.

Durability
All mounting systems are ruggedly designed and tested for commercial use.

Reliability
Thorough testing and field experience, ensures all products stand up to the rigors of repeated professional use.

Solutions shown within this brochure represent just a fraction of the wider range available. Our expert sales and engineering team will be pleased to assist in selecting the correct solution for your individual project requirement. We appreciate that all requirements are different, however we have identified a number of more commonly used solutions to assist with your selection process.

Available in wall, pole, desk, or floor mount fitting.

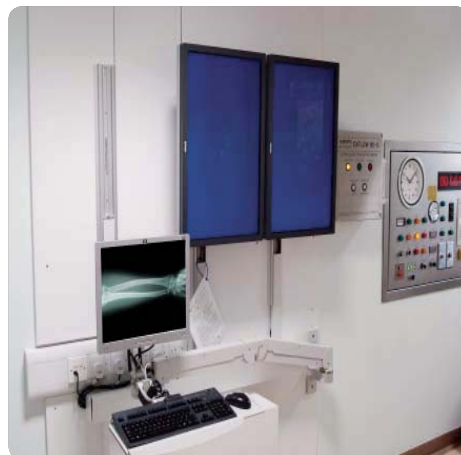

The **Double Elite with Paralink** arm is the latest high quality LCD monitor arm to include the unique Paralink adjuster designed to enhance lateral stability for larger LCD monitors. The arm provides a massive 1524mm (60") of reach and 1066mm (42") of height adjustment.

The Paralink monitor attachment allows for tilt, swivel and ability to rotate the monitor from landscape to portrait. When extended the keyboard can be positioned up to 1830mm (72.04") from the wall. The Elite LCD arm supports 12.7kg of max weight when used with monitor only, 9.9kg of max weight with monitor and keyboard configuration. Available in monitor or monitor and keyboard configurations, desk, wall or pole mount fittings. Select from a wide range of keyboard tray options including ergonomic, composite and ultra 12" wide mini flat.

The Elite double arm solution is widely used as an ergonomic mounting solution for PACS and EPRS applications.

Finishes include medical white, light grey or black.

Select from a wide range of keyboard tray options including ergonomic, composite and ultra 12" wide mini flat.

Specifications

Arm Ext.:	1524mm
Monitor Height Adjust	1066mm
Tilt Adjustment:	+/-90°
Monitor Swivel	+/-180°
Monitor Orientation	Landscape or portrait
Colour	Medical white, grey or black
Touch Screen Stable	No
Keyboard/Mouse Tray	Available
Max Monitor Weight	12.7kg (monitor only) 9.9kg (monitor/keyboard)
Product Warranty	3 Years (1 year on cylinder)

The **Elite** series of wall mounted **hospital LCD/TV** monitor mounting solutions incorporates revolutionary design features, allowing monitor weights up to 12.7kg to be supported whilst providing effortless movement.

Each model provides 1330mm (42") of finger touch reach and 1066mm (42") of vertical movement via the gas assisted arms. The Elite LCD arm is designed for ease of use by both patients and clinicians alike. Each Elite wall mount provides 360° of screen swivel and 90° downward tilt. This enables patients to view TV whilst sitting or lying in bed and also whilst seated in an adjacent chair. In cases of clinical emergencies staff can immediately swing the monitor/TV up and out of the way enabling direct access to the patient.

As a fully cable managed monitor mounting solution, the arm is ideal in hospital and dental environments.

Finishes include medical white, light grey or black.

Specifications

Arm Ext.:	216 - 1330mm
Monitor Height Adjust	1066mm

Optional extras include:

Available as ceiling mount fitting.

Optional extras include:

The **Elite and T2 Elite with Quicklink Adjustable LCD Ceiling Mounts** incorporates revolutionary design features allowing monitor weights up to 12.7kg to be supported whilst providing effortless movement.

Each model provides 530mm (21") of finger touch vertical movement via the gas assisted arm. Extra horizontal movement is provided by the T2 arm to yield a massive 1066mm (42") of maximum reach (including monitor).

Available with 127mm (5"), 300mm (12"), 600mm (24") or 910mm (36") pole drops. Each Elite ceiling mount has 360° rotation at the ceiling mount, 360° screen swivel and +25°/-90° of tilt.

The Elite and T2 Elite with Paralink Swivel make an ideal ceiling mounted solution for patient TVs. The effortless movement allows both patients and clinicians alike to position the TV with ease.

Finishes include medical white, light grey or black.

Touch Screen Stable	No
Keyboard/Mouse Tray	Available
Max Monitor Weight	8.16kg
Product Warranty	3 Years

The **MD** arm is the latest high quality LCD monitor arm to benefit from the unique Paralink adjuster designed to enhance lateral stability for larger LCD monitors. The MD arm provides a full 635mm (25") of vertical height adjustment, enough to create a sit-stand wall mounted workstation.

When extended the keyboard can be positioned up to 1090mm (43") from the wall and folded to within 216mm (8.5") when not in use. The thinner frame and slimmer design make the MD arm ideal for applications where space is tight and maximum flexibility required. Finished in either medical white or black.

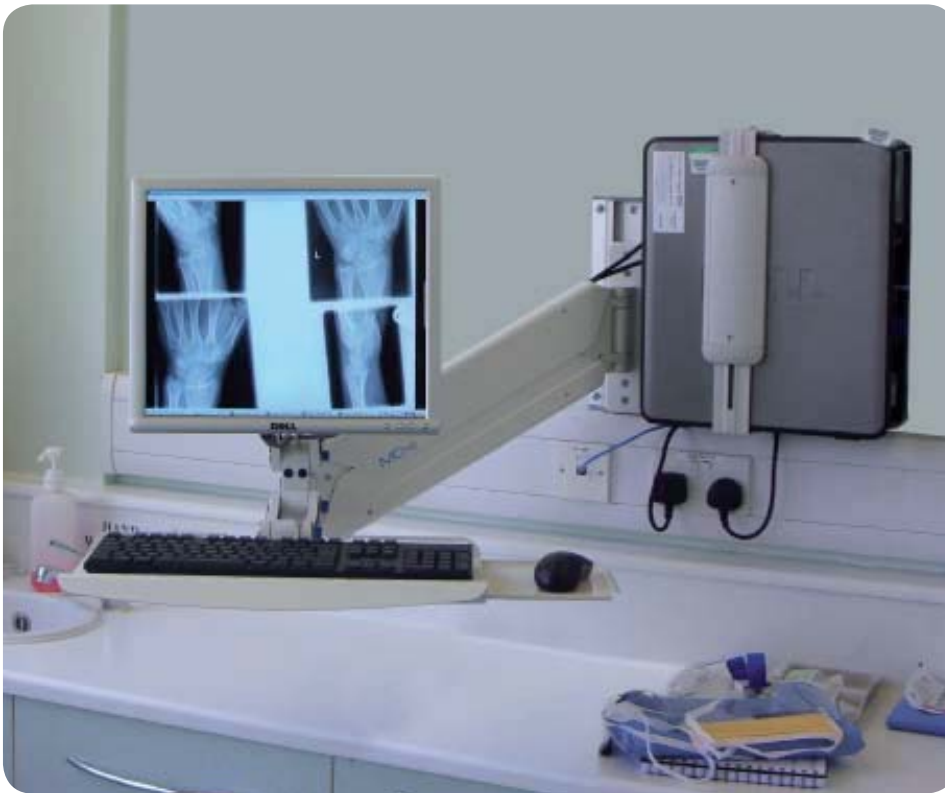

The MD is widely used within dental and pharmaceutical environments due to its slimline profile and ergonomic adjustment.

Available as wall mount.

Optional extras include:

Specifications

Max Monitor Weight	13.6kg
Product Warranty	3 Years

Available in wall and desk mount fittings

The **VisionPro 500** series provides the widest range of viewing positions and angles of any monitor arm of its type. Designed to suit any application within the office, production or medical environments.

The VisionPro 500 can be adjusted in height, extension, tilt, swivel and portrait to landscape to meet all modern ergonomic criteria. Precision manufactured in die-cast aluminium, the VisionPro 500 series provides up to 460mm of height and 720mm of reach adjustment.

Supplied with desk clamp mount, bolt through or wall mount fittings. Silver or black finish.

Specifications

Arm Ext.:	up to 720mm
Monitor Height Adjust	Yes
Tilt Adjustment:	+/-57°
Monitor Swivel	+/-57°
Monitor Orientation	Landscape or portrait
Colour	Silver or black
Touch Screen Stable	Yes
Max Monitor Weight	11kg
Product Warranty	1 Year

Available in wall mount fitting

The **VisionPro 550** series wall mount is a highly aesthetic wall mounted monitor arm ideal for use within offices and medical environments where space is at a premium.

The VisionPro 550 series LCD monitor arm can be adjusted in extension, tilt and swivel with landscape to portrait movement to meet all modern ergonomic criterias. Precision manufactured in die-cast aluminium with internal cable management.

Available as wall mount fitting, compact (135mm max reach), extended (315mm max reach) or double extended (495mm max reach).

Finished in black.

Specifications

Arm Ext.:	up to 495mm
Monitor Height Adjust	0mm
Tilt Adjustment:	+/-57°
Monitor Swivel	+/-57°
Monitor Orientation	Landscape or portrait
Colour	Black
Touch Screen Stable	Yes
Max Monitor Weight	12kg
Product Warranty	1 Year

The **VisionPro 300** series Multiple LCD Supports allow the arrangement of multiple LCD monitors in a parabolic placement for simultaneous viewing. Up to eight monitors can be supported on a single configuration.

Angle adjustable horizontal crosswings and adjustable pivot mounts allow monitor bezels to be positioned together and without gaps. Monitors can be configured on one or two levels, therefore fully maximising valuable desk space. The VisionPro 300 series is also re-configurable as future expansion requirements dictate. Finished in black.

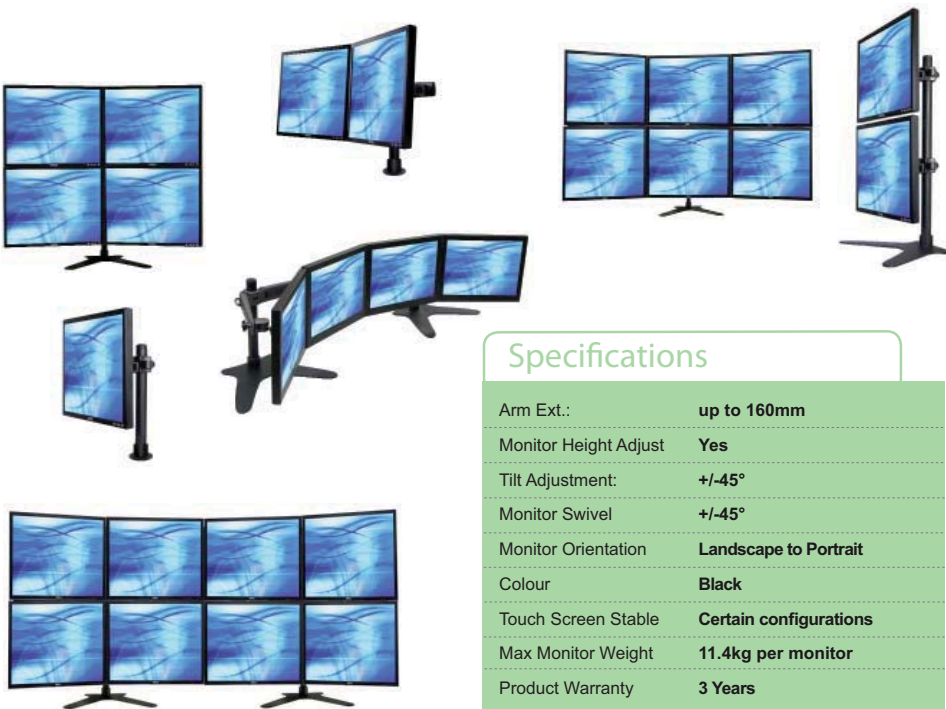

* Dependent upon configuration

Optional extras include:

Select from a wide range of keyboard tray options including ergonomic, composite and ultra 12" wide mini flat.

“We needed a complete ergonomic computer workstation on virtually a zero footprint. The Ultra 510 Computer Workstation exceeded all criteria”

The **Ultra 510-FX48 Computer Workstation** is a strong and durable, all in one 1.22 metre (48") tall computer workstation that is secured to the floor via a compact 200mm x 200mm (8" x 8") floor plate.

Monitor, keyboard and mouse are attached directly to the pole on a compact non extended, single extended 280mm (11") arm or double extended, 2 x 280mm (11") arms providing a maximum extension of 600mm from the pole. The keyboard and mouse tray flip up when not in use to further reduce the footprint.

The keyboard can be set at 960mm - 1230mm (38" - 48") from the floor. The attached adjustable CPU holder is supplied in narrow width 50mm - 116mm (2" - 4.6") or standard width 100mm - 205mm (4" - 8.4").

The Ultra 510-FX48 Computer Workstation is widely used as an ergonomic bedside solution for EPR and is an ideal solution where space is at a premium.

Finishes include medical white, light grey or black.

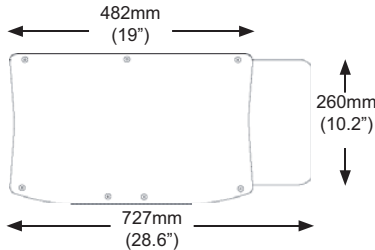

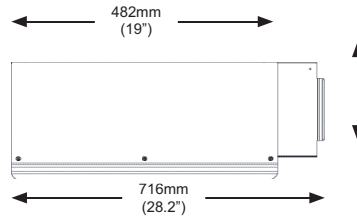

Specifications

Arm Ext.:	up to 600mm
Monitor Height Adjust	150mm (plus 270mm on pole)
Tilt Adjustment:	+/-45°
Keyboard Swivel	+/-90°
Monitor Orientation	Landscape
Colour	Medical white, grey or black
Touch Screen Stable	N/A
Keyboard/Mouse Tray	Yes
Max Monitor Weight	8.16kg
Product Warranty	3 Years

Keyboard Tray Options

The **Ultra Ergonomic (standard width)** 19" wide aluminium tray with wrist rest in front of the tray.

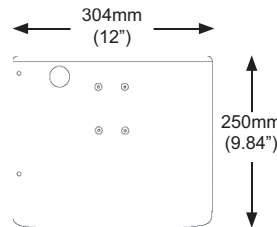

Composite (standard width)

19" wide soft edged composite material with a slide-out mouse tray.

12" Ultra mini flat

12" wide aluminium tray with wrist rest in the front of the tray.

Patient Monitor Mounting Solutions

No longer does your medical patient monitoring device have to be confined to a static mounting solution. A wide range of interfaces are available for leading vital signs monitors to enable it to be supported on an ergonomic adjustable solution. Enabling height, reach and tilt positioning our experienced design team can quickly assist in developing interfaces for non VESA standard medical devices.

The Welch Allyn Medical Vital Signs **Monitor bracket** allows you to connect the Welch Allyn Vital Signs Monitor to the Ultra arm or the MD arms. A ball joint gives you 50° of tilt that is independent from the arm movement.

The **Motion Tablet bracket** allows the Motion Tablet to be mounted to any of our arms that have a VESA mounting interface. Enjoy the wide range of adjustment that articulating arms give you with your Motion Tablet.

“ The range of keyboard tray options enabled us to configure each position to best suit our individual requirements ”

Medical research company

“ The 12"/305mm flat keyboard tray suited our washable medical keyboards perfectly ”

Private Healthcare Provider

“ The receptive response we received from Medical Mounts in designing, developing and manufacturing a custom patient monitoring mounting solution surpassed all our expectations ”

Leading Specialist IT Supplier to the NHS

The **EZ Series** of CPU holders is constructed from heavy duty aluminium and designed for both wall mounting and pole mounting CPUs.

CPU units up to 20.4kg in weight can be accommodated. The narrow version adjusting to widths between 50mm (2") and 116mm (4.6") and standard version adjusting to widths between 102mm (4") and 205mm (8.4"). CPU unit can also be supplied with a 50mm 2" pole clamp.

Finishes include medical white, light grey or black.

Specifications

Width Adjust (small):	50mm - 116mm
Width Adjust (large):	100mm - 205mm
Tower/desktop CPUs:	Yes
Colour:	Medical white, grey or black
Max Load:	20.4kg
Product Warranty:	1 Year

Optional extras include:

Specifications

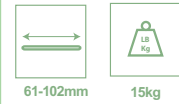

Width Adjust (small):	61mm - 102mm
Width Adjust (large):	82mm - 120mm
Tower/desktop CPUs:	Yes
Colour:	Medical white, grey or black
Max Load:	15kg
Product Warranty:	1 Year

The **SF Series** wall mount CPU holder provides a sleek, elegant support for small form factor CPUs available in two sizes, the first adjusting between 61mm and 102mm and the second between 82mm and 120mm.

The EMSFCPU-WM-MW wall mount CPU holder has the benefit of a zero footprint both on the floor and on the desk and can be positioned at any height to suit the required location.

The high quality, all metal design is quick and easy to install and fits to the size of your CPU with adjustable clamp technology. Additionally the CPU holder can be mounted to a 50mm pole using an optional 50mm collar. The EMSFCPU-WM-MW can accommodate CPUs up to 15kg in weight.

Finished in medical white or black.

Optional extras include:

The **Ultra CPU Series** of CPU mounts are the ideal solution for safely attaching your computer CPU unit to the desk or wall (virtually any vertical surface).

This medical grade mount suspends your CPU unit off the floor reducing the potential of damage via static shock, moisture and dust - all helping to extend the life of your computer. Ultra CPU holders are available in four sizes to suit most tower and desktop style CPUs on the market and come fully assembled for quick and easy installation.

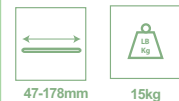

Supplied with a securing grub screw to prevent accidental removal and opportunistic theft.

Finishes include medical white, light grey or black.

Specifications

Width Adjust:	47mm - 178mm
Height Adjust :	204mm - 463mm
Tower/desktop CPUs:	Yes
Colour:	Medical white, grey or black
Max Load:	15kg
Product Warranty:	1 Year

“Computer keyboards are widely used in hospitals and are a likely means by which MRSA can be spread from person to person”

Leading Medical Keyboard Manufacturer

The **SterileFLAT keyboards** are an invaluable tool in reducing the risk of cross infection in any medical environment.

SterileFLAT keyboards offer a conventional style keyboard with RoHS Compliancy and an antibacterial silicone membrane which can be used in all areas of clinical and medical environments.

SterileFlat keyboards can be regularly washed with antibacterial or alcohol based cleaning agents, thus reducing the spread of MRSA, Cdif, Noro Virus, EColi, Salmonella and Airborne Viruses.

Econo-Keys' economical keyboards and pointing devices are sealed and completely washable to withstand daily scrubdowns with antibacterial agents, enabling them to meet and exceed any hygienic protocol and reduce the risk of infectious bacteria.

Econo-Keys are completely sealed to IP67 standards to keep out dust, dirt and moisture. The diverse lines include keyboards with integrated touchpads and mouse buttons; compact mobile keyboards; and desktop mice available in both white and black.

“People who use multi-user equipment should wash their hands after each use”

Senior Nurse for the NHS

Unotron keyboards are patented with SpillSeal® technology and tested to the IP66 and NEMA4X International Standards, meaning you can wash and disinfect the keyboard in hospital grade cleaning solutions, helping to reduce the spread of bacteria and cross infection.

You can use the keyboard with confidence in many different environments such as Healthcare, Education, Military and Commercial.

“To insure protection from infection, equipment should be cleaned at the end of each scheduled shift”

Practice Manager, NHS Dental Surgery

Our innovative infection control solution, the AquaPoint™ optical mouse, offers the safety and convenience of a completely liquid proof pointing device.

Constructed using the same materials that go into the popular SlimKey-MD™ family of medical keyboards, including an ABS polycarbonate case and an industrial silicone overlay, the AquaPoint & trade can be disinfected using any hospital cleaning agent.

The EMM11 Scrollseal washable optical mouse uses patented SpillSeal™ technology and has been tested to IP66 and NEMA4X International Standards.

It's the first washable mouse to incorporate a roller / scroll wheel that can be easily removed for cleaning. The EMM11 has smooth optical tracking and an ergonomic design featuring three button (two standard buttons with a third button conveniently located in the centre). The innovative design of the EMM11 means that it can be easily washed, immersed and sterilized with most detergents and anti bacterial agents. Every recess can be sterilised including the scroll wheel which can be removed and simply clipped back into place when clean.

The patient notes basket is a retrofittable option that enables storage of various notes and patient folders.

Equipped with a variety of keyboard tray options.

The cart can accommodate various label printers, either mounted above or below the surface.

A range of brackets for supporting a variety of sharps buckets.

Can be fitted with up to two lockable storage drawers.

For wireless applications the cart can be fitted with a wireless antenna.

The **MD5 Series** of powered carts are designed to use with a PC, a Tablet PC or a Small Form Factor PC with a single monitor.

The MD5 is a height adjustable and highly manoeuvrable, simplistic, rugged cart suitable for use within numerous medical and dental environments.

The unique features of the MD5 Cart include:

- Computer securely housed to protect against theft.
- Quick and easy PC/Monitor integration.
- Effortless height adjustment.
- Low friction, anti-static castors for easy manoeuvrability.
- Smooth, easy to clean surfaces.
- Unique battery system housed in the small footprint base.
- 1 year warranty.
- Manufactured in the UK.
- Supplied fully assembled.

The MD5 cart is supplied fully assembled and is quick and easy to integrate with your PC.

The MD5 is can also be customised with a wide range of accessories including; patient notes basket, printer mounts and keyboard trays making it a highly flexible option.

Specifications

Surface Height:	850mm - 1150mm
Surface Dimensions:	660mm x 582mm
Base Dimensions:	530mm x 450mm
Finish:	Industrial Powder Coat
Weight:	55kg

The **Simple Smart Laptop Cart** is designed for use with a wide range of 14" - 17" laptops. The simplistic design incorporates only necessary key features.

Lightweight, height adjustable, easy to clean, affordable, minimal storage and with secure mount for a variety of laptops. Only necessary key features have been used to ensure that this simple product meets budgetary constraints.

- Can be folded flat for easy storage.
- Quick and easy to assemble.
- Height adjustable for use whilst sitting or standing.
- Highly manoeuvrable.
- Quick and easy laptop integration.
- No additional keyboard is required.
- Laptop secured against theft.
- Smooth, easy to clean surface, can be cleaned with hospital grade cleaning solutions.
- Ultra tough aluminium base to withstand the demands of a busy work environment.
- Storage basket.

Specifications

Surface Height:	700mm - 1100mm
Surface Dimensions:	490mm x 570mm
Base Dimensions:	600mm x 600mm
Finish:	Industrial Powder Coat
Weight:	15kg

The Laptop Cart is a perfect platform for mounting MCA devices.

By simply removing the laptop retaining brackets and fitting the docking station into the existing mounting holes the laptop cart becomes a completely mobile point of care terminal.

This configuration provides a lightweight, robust platform on which the MCA can be docked when not required at the patient bedside, and can be used with a full size keyboard and conventional mouse for greater data entry efficiency.

Laptop retainers can be attached to the laptop cart in one of three locations preventing removal from the cart.

Five lockable castors are available on request.

A sliding mouse tray can mount underneath the work surface in place of the basket.

A flip up surface can be attached to the side of the unit and stowed away when not in use.

A front extended work surface is also available when an additional keyboard and mouse are required.

Custom design solutions are also available upon request.

Shortly after it launched in April 2010, hospitals across the UK started launching iPad programs.

To compliment the varied uses of the Apple iPad / iPad 2, ErgoMounts has released a new range of ergonomic, space efficient quick release and secure mounting solutions.

Our extensive range covers many potential uses, including combination monitor plus iPad mounting configurations, as well as articulated mounts with reach variability - ideal for retail environments, and fixed secure workstations - useful for receptions, waiting rooms and exhibitions.

The unique ErgoMounts anti-tamper **Secure iPad Enclosure** is manufactured from a single piece of aluminium: available in two versions for both the iPad and the slimmer iPad 2.

As standard each enclosure is provided with the home and power buttons covered and the power/data socket enclosed in the casing. The headphone socket is also accessible and tiny stylus holes exist to enable volume adjustment and powering on and off of the iPad.

Such exacting designs ensure that the security enclosure cannot be removed from the mount making it suitable for use within environments populated by the general public - for example in hospital receptions or waiting rooms.

- Highly aesthetic. Designed to compliment the iPad / iPad 2's sleek curves and contemporary design.
- Enclosure can be customised to suit individual security requirements.
- Enclosure does not interfere with WiFi or 3G signal.
- Manufactured from a single piece of solid aluminium, CNC machined and finished to the exact dimensions of the iPad / iPad2.
- Strong, durable, lightweight aluminium construction.
- All secure enclosures are manufactured to order to the customers exact requirements and specifications.
- Silver finish, black on request.

ErgoMounts **FX100 Series** iPad Flush Fit Wall Mount

The EMFX100 Series is a neat, compact wall mounting solution for the Apple iPad / iPad 2. The iPad / iPad 2 can be mounted in either a landscape or portrait configuration flush to the wall.

- Neat and compact just 45mm from the wall.
- Wall mount fitting.
- Home button, volume control and power button can be blanked off or stylus holes can be added.
- Security, anti-tamper device.
- Touch screen stable.
- Models available for both the iPad and iPad 2.
- Can be mounted either landscape or portrait.
- Simple installation.
- Silver finish.

ErgoMounts **VisionPro F1280 Security** Floor Mount
